

surefleet
National Fleet Management

NATIONAL FLEET MANAGEMENT SERVICES PROVIDER FOR AUSTRALIA

Surefleet providing robust, reliable vehicles to the resources, infrastructure, utilities and government sectors.

SUREFLEET IS A NATIONAL FLEET MANAGEMENT SERVICES PROVIDER

We specialise in providing vehicles to the resources, infrastructure, utilities and government sectors. Our vehicle fleet ranges from standard passenger and commercial vehicles through to vehicles that are fully equipped and mine or site compliant.

Surefleet's superior supply chain and geographic diversity ensure our clients' receive high quality, localised support and service.

Surefleet will customise an individual vehicle or an entire fleet to your exact requirements. Our fleet solutions are designed to achieve two main objectives;

Provide employees with safe, comfortable, reliable and compliant vehicles

Reduce Costs, optimise asset utilisation and streamline your business operation

Our experienced account managers will take care of everything for you – you have one point of contact and zero problems.

VEHICLE SELECTION AND FITOUT

At Surefleet our clients' needs are the number one priority. We operate a multi-brand model, ensuring our clients receive a vehicle that is best suited to their needs, rather than a vehicle that is forced upon them through pre-arranged franchise agreements.

Vehicles are fitted with everything required to make them compliant for the mine site or environment they will be utilised within.

If there are no pre-determined specifications, safety-conscious clients' can liaise with Surefleet's safety consultants to develop a specification kit.

SUREFLEET SERVICE ADVANTAGE

With Surefleet service advantage clients' can forecast what their exact servicing costs* will be for the entirety of their rental period *excluding parts.

Rest assured with fixed price servicing, performed by trained technicians, using the latest in diagnostic equipment and genuine parts.

PERFORMANCE REPORTING

Surefleet vehicles are fitted with advanced in-vehicle monitoring systems (IVMS) to provide comprehensive performance and compliance reporting, and enable you to track your vehicles and drivers anywhere – anytime.

Surefleet's IVMS systems also enable you to promote and monitor safety and efficiency.

Reports can be tailored to your needs and delivered as frequently as you require.

IN-FIELD AND MOBILE SERVICING

Surefleet can provide a range of in-field and mobile servicing options to optimise the productivity of your workforce. In-field and mobile units carry a comprehensive range of genuine parts and are operated by trained technicians. With Surefleet service advantage clients' can forecast what their exact servicing costs* will be for the entirety of their rental period *excluding parts.

Rest assured with fixed price servicing, performed by trained technicians, using the latest in diagnostic equipment and genuine parts.

ROADSIDE ASSISTANCE

Surefleet vehicles are covered by comprehensive factory warranties and roadside assistance. In the event of vehicle failure, a replacement vehicle will be immediately mobilised and provided to you.

DRIVER TRAINING

Your employees and drivers are responsible for valuable assets, and may also be subject to driving in hazardous environments. Surefleet can facilitate a range of certified driver courses to ensure your employees are adequately prepared for the environment they'll be working in, and also familiar with the limitations of the vehicles they are driving.

ANCILLARY SERVICES

Surefleet can also provide fuel cards, e-tags, user manuals, driver-changeover checklists and financial reporting. We pride ourselves on delivering complete fleet management solutions to clients.
